Installation (Junction Box)

4" LED closets with PIR motion sensor provide surface mount light for new construction applications. Unit fits most 4" junction boxes and can replace 5", 6" recessed can lights to eliminate baffles & Fire rated boxes.

Step 1: Prior to installation, please install two screws (furnished) into the junction box. Do not drive screws completely to the end of the junction box.

Step 2: Connect supply wires to wires in fixture wiring box with proper size wire nuts or push wires into "push-in" connector. Connect white to white, black to black, and green or bare copper wire to bare copper wire.

Step 3: The ground wire at the service junction box may need to be secured to a ground screw.

Step 4: With a screwdriver, attach the disk light tightly to the j-box.

Step 5: Complete the installation by twisting the diffuser on the disk light metal enclosure and lock the diffuser in place.
